

# **Electric Power Announcement**

Tier 4 Interim Information on Cat.com

July 12, 2010

**Attn: Dealer Power Systems General Managers, Sales Managers, Product Support Managers, and Tier 4 Dealer Champions**

A new **Emissions Reduction** webpage has launched on **Cat.com**:  
**<http://www.cat.com/power-generation/generator-sets/emissions>**

Designed for engineers, consultants and end-users, the text reflects customer value messaging and has been optimized for search engines.

Resources include:

- Tier 4 Interim Emissions Presentation w/ Audio
- Tier 4 Interim Emissions Guide
- Tier 4 Regulations Charts for Stationary and Nonroad Generator Sets
- Tier 4 Interim Press Release
- Tier 4 White Paper

The audio presentation provides a link to the **Power Generation Online Community's** public discussion board for regulations:

**<https://caterpillar.lithium.com/t5/Power-Generation-Tier-4-EU-Stage/bd-p/Regulations>**

In addition, there are related links to Cat Emissions Solutions and industry resources, such as:

- EPA (Nonroad/Stationary Regulations and Nonattainment Area Designations)
- Dieselnets.com

Please review the content on this web page and share it with your customers.

Also, please encourage dealers to add the link to their dealer websites.

If you have any questions please do not hesitate to contact Christine Miller at 309-578-3327 or by email at [Miller\\_Christine\\_L@cat.com](mailto:Miller_Christine_L@cat.com)

Sincerely,

Steve Niehaus  
Power Systems Manager  
Electric Power North America
